Kaithal ,State Haryana , on 17<sup>th</sup> Oct 2022 to inspect the school building and assess the Structure stability. The School building is Two storied .

The school building was inspected by me in the presence of the member on 17<sup>th</sup> Oct 2022 and it is found that the foundation of the building & structure is quite safe and sound and can withstand all the weather effect & earthquakes.

The building has already withstood all weather condition and medium earthquakes etc during the past and there are no cracks & deformation in any part of building .
